ELEGANT

General Trading FZC LLC

Elegant General Trading FZC LLC

MRF is a renowned tyre manufacturer and India's largest. MRF has won the J.D. Power Asia Pacific Original Equipment Tyre Customer Satisfaction Award a record 13 times in the last 20 years.

We offer both the MRF Steel Muscle, Steel Master & Muscle Master Series of LCV/ Pickup Radial Tyres.

We manufacture and supply in bulk quantities due to its high demand. Offered range consist of industrial rib tyres, light truck tyres and well-designed super lug tyres that are manufactured to satisfy the requirements of clients.

All MRF LCV Radial tyres have excellent design and tread that provides better road grip, and enhanced mileage and traction.

DENSO

Denso is a world leading manufacturer of automotive AC products. Denso's cooling components find their way into majority of the world's leading car brands, including Audi, BMW, Fiat, Mercedes, Porsche, Toyota, and VW.

DENSO A/C COMPRESSORS

Denso is a world leader in the AC compressors market space and holds 40% share of the global market. Denso AC compressors can be found in Audi, BMW, Fiat, Mercedes, Porsche, Toyota, and VW cars. We offer both the Rotary types & the Reciprocating types of Denso AC compressors.

DENSO AC COMPRESSOR OIL

We offer the full range of Denso AC compressor oils, including the ND-Oil 8, ND- Oil 11, and ND-Oil 12

DENSO AC COMPONENTS

We offer various Denso AC components, including Condensers and Evaporators.

DENSO ENGINE COOLING COMPONENTS

We offer the Denso range of engine cooling components, including cooling radiators, cooling fans, and cabin blower fans.

Amaron Batteries are manufactured by Amara Raja Batteries Limited, which is one of the largest manufacturers of lead acid batteries in India for the automotive and industrial segment. It is the first company to manufacture Valve Regulated Lead-Acid (VRLA) batteries in India. The company offers a wide variety of battery solutions in segments such as UPS, Telecom, Defence, and Railways.

AMARON QUANTA - HUPS

To achieve improved performance, the product has a longer cycle life and excels in deep discharge and PSOC working situations.

AMARON SOLAR

Any sort of solar power system can benefit from power backup options. They are available in both SMF and Tubular configurations.

AMARON SLEEK

True Front terminals are used in batteries to provide greater performance in all power backup applications.

AMARON QUANTA

The industrial segment SMF battery for UPS applications.

AMARON QUANTA - HWS

Guarantees immediate discharge, eliminating the normal downtime in mission-critical applications. Aside from providing faster charging with high efficiency upon power restoration, the lower operational expenses, suited for a wide range of critical power applications, particularly in the IT & ITES sector (DATA centers) and process sectors.

AMARON VOLT

A member of the Amaron Hi Life Battery portfolio. It is intended to be a tough, long-lasting, and dependable battery that will meet all of your backup power needs for important applications, even in severe outdoor situations.

POWERSTACK (HIGH PERFORMANCE)

A modular in design and can accept a wide range of capacities depending on the application.

MADE IN JAPAN

Gracemate Poppy is the world's best-selling liquid air freshener for 40 years, using state-of-the-art technology and high-quality ingredients. They are used to add aroma to enclosed environments such as cars, offices, residences, and stores.

CHERRY

GARDENIA

PINE

VANILLA

LAVENDER

JASMINE

CATLEYA

We are the sole distributor of Gracemate Poppy liquid air fresheners in the United Arab Emirates, Middle East, Africa and South Asia.

Gracemate Poppy Air Fresheners are made with the highest-quality liquid perfuming agent and packaged in an aromatic masterpiece. It creates a fresh, pleasant environment in the office, car, home (lavatory, lounge, and bedroom), and boats. It eliminates odors and makes the atmosphere a more pleasant place to live and work in.

ATLASBX Maintenance Free Batteries are technically superior and time-tested batteries that are trusted around the world for their superb and unrivaled performance.

Internal rust-free calcium metal maintains excellent heat resistance and immunity to dramatic temperature variations, ensuring the battery's high heat resistance.

Quality begins with the raw materials and is monitored throughout the manufacturing process, including the final inspection.

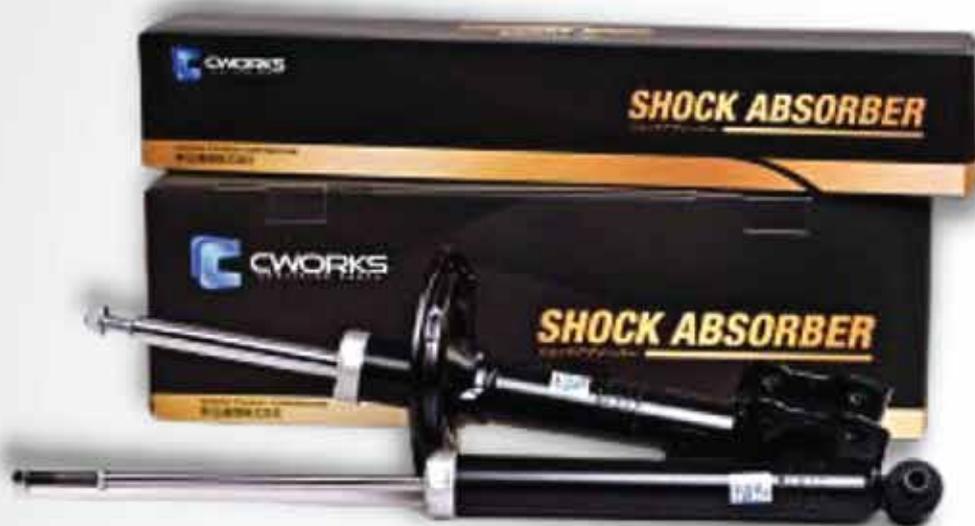

FEATURE & BENEFITS

- Smooth and stable engine operation
- 100% maintenance-free or MF batteries
- Extended lifespan
- Battery health indicator
- Easy and manageable handle
- Vibration resistant
- Specially designed to suit international OEM requirements
- Hydrometer
- Heat sealed cover to prevent leakage
- Exclusive patented liquid gas separator
- Flame arrestor safety system
- Low-resistance envelope separators
- Centered cast-on plate straps
- Wrought lead-calcium grips
- Polypropylene case

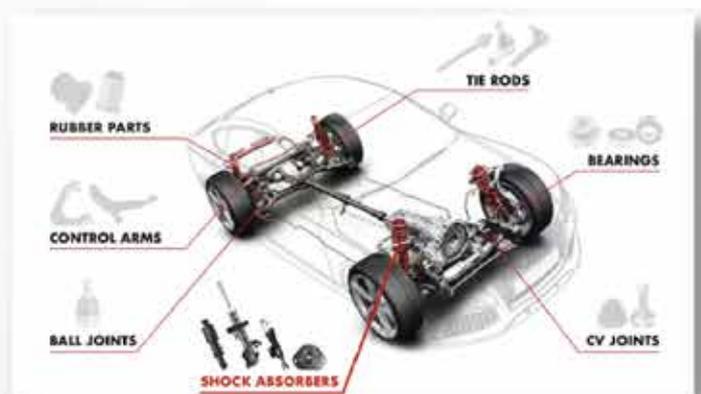

SHOCK ABSORBER

EXCELLENT ABSORPTION OF SHOCK

CWORKS shock absorber keeps the car's tyres in permanent contact with the road, helping to provide optimum grip, when cornering and braking, so if the shocks are worn, the vehicle's ride and comfort is compromised.

CWORKS products cover a wide variety of vehicle models and we have prepared a comprehensive lineup of parts required for automotive customer service. By allowing them to safely select Toyota Tsusho's incredibly low-priced products, we will help our customers achieve a pleasant vehicle owning experience.
